

## "Gift" Mare Is Double Winner At Horse Show

**Miss Clara Peck's Winona, Which Nobody Wanted at Sale, Takes Sweepstakes and Saddle Class Prize**

Helped by Perfect Riding

Generous Conditions Give Every Exhibitor Chance to Get Coveted Ribbons

By Harriette Underhill

It looks as though every horse that competes at the Durand Horse Show this year will be rewarded with some sort of prize, for the classes are arranged with such varying conditions that an entry which is fourth in one competition stands a perfectly good chance of winning the blue the next time he comes into the ring. No one is surprised at anything that happens, so Winona's owner should pat herself on the back because she won two blue ribbons at the first night in two entirely different classes.

The first contest which Winona won was the big sweepstakes and it was considered the event of the evening.

In answer to the bugle call there came Czech Princess and Myrrh Date and Bohemian Silk and Sun Dial and Miss Nightingale, all blue ribbon winners, since one of the classes. Winona is one of those Cinderella horses which was picked up on the auction block for a few dollars and blossomed out into a beauty. At least that's the way we tell the story last night but we do not wish for its authenticity. Winona is practically perfect now, only she insists on carrying her tail curled over to the starboard side and no one can induce her to carry it straight. It seems to be her only flaw. She defeated all contestants for the sweepstakes and then she turned to win the silver trophy offered by Samuel Keller Jacobs for women's saddle horses.

*"Owned and Bidden by Owners."*

The owners of horses are also

nowhere we are not prepared to say, but the conditions of this class, printed in the catalogue sounded so funny to us that we are going to quote them. All agree with us please say, "Amen."

"Amateur class—Women to ride on side saddles. For the purposes of this class the riders must be over sixteen years of age, horses over 14 hands, to be

and ridden by owner. (Now how could they be owned by anyone else?)
